sponsored events

Sponsored events are led by some of our most dedicated student leaders of today. With these events, students are given the opportunity to put their leadership skills to the test and host their very own campus quantum computing event with the goal to grow the quantum community using resources and guidance from IBM®.

Please note for in-person events you must be local or able to travel to the event location.

Please note you must have permission from your attendees to submit the photos for release.

Badge example and process

Please note this will be the same process this year. Please [complete this form](#) AFTER your event has ended and please expect the badge to be issued on November 25th.

How many attendees did you have at your event? *

Drop pictures from your event here.
Have more than can't fit in the airtable here? Email the rest to qiskit.events@us.ibm.com! :)

Drop files here or [browse](#)

Overall, how did your event go? *

Please elaborate as much as you can.

What materials did you teach to your attendees? *

Quantum

Qiskit

Auto-graded Challenge Notebooks

Intermediate to Advanced Hackathon Prompts

Error Characterization

Open-ended beginner learning notebooks

Advanced Transpilation tutorial and code notebook

Beginner Hackathon Prompts

Other

If other, please elaborate.

2024 Qiskit Fall Fest Mentor

Issued by IBM

Recognizing a note-worthy achievement for the individual who has demonstrated the capability to mentor fellow members of the quantum community. This credential earner has successfully hosted and mentored attendees at the official Qiskit Fall Fest (a collection of quantum computing events where IBM Quantum provides tools and resources to help them plan and run their on-campus event).

Validation Advanced Free Months

Skills

Mentorship Event Planning Quantum Computing
Quantum Applications

Earning Criteria

- The mentor must effectively coach the Qiskit Fall Fest objective (spreading basic understanding and knowledge to local community members and beyond). The mentor should encourage the mentee to expand their knowledge in Quantum and Qiskit. There must be enough knowledge transfer that supports the mentee objectives.
- The mentor must provide proof of guidance and technical support in their event and work to develop the area of interest of the mentees.
